HOPE FOR TOMORROW

PROUD to SERVE

Hope for Tomorrow team preparing for a free dental clinic in the Washington D.C. area (Fall 2017).

About Hope for Tomorrow

Established in 2005, Hope for Tomorrow is a 501(c)(3) non-profit organization based in Rockville, Maryland. Hope for Tomorrow (HFT) started with a small group of friends who wanted to give back to the community because they have been blessed with generosities from their newly adopted home – America. In the spirit of friendship and giving back, Hope for Tomorrow started with a few friends which grew into a group of 200+ dedicated volunteers and growing. Hope for Tomorrow is committed to a 100%-volunteer managed and operated non-profit organizations.

Hope for Tomorrow's mission is to provide healthcare, human services, infrastructure build outs and educational assistance to the disadvantaged communities. Hope for Tomorrow organizes and runs numerous programs to serve those in need. The programs includes the following :

1. International Dental & Medical Missions
2. Domestic Dental Missions
3. Infrastructure build out
4. Educational assistance
5. Human services
6. Special projects

The **Howard County Department of Community Resources and Services** and **Office of Community Partnerships' MultiService Center** would like to extend tremendous gratitude to

Hope for Tomorrow Board of Directors (2018 - 2020) (L-R): Thang Do, Chau Nguyen, Dr. Quyen Dang, Dr. Thi Nguyen, Loc Nguyen, Dr. Anna Abel, Dr. Chuong Phan, Dr. Duc Le, and Hung Nguyen

Letter from the President of Hope for Tomorrow

On behalf of Hope for Tomorrow (HFT), I would like to express my sincere gratitude for your continuous support and participation in pushing Hope for Tomorrow forward. 2018 has been an explosive growth year for HFT. In May 2018, HFT received its first $1 Million dollars grant from Daisy Nail Designs (DND). This grant helped catapult HFT to a new level of growth. From the DND grant, the HFT team identified numerous projects which covers areas such as infrastructure, education, and health and human services.

The “growing pain” of every organization is viable to leap toward the coming years. HFT started out with three members and after 12 years, there are hundreds of dedicated volunteers. Our Volunteers are exponentially multiplying. With the HOPE Millennium and HOPE Next generation, it’s time to give back and spread these exponential Love, Care and Hope to the less fortunate one .

As an organization, HFT is still growing. The organization needs all forms of support. Most importantly, HFT needs energetic volunteers and teams members to take on leadership roles. I urge you to join the Hope for Tomorrow team and make a difference.

Dr. Thi Nguyen
President (2018 - 2020)
Hope for Tomorrow

HFT Team receiving a $1 Million Dollars grant check from DND. (L-R) Dr. Quyen Dang, Dr. Thi Nguyen, Mr. Loc Duong and MC Nguyen Cao Ky Duyen

DND Grants

On May 26, 2018, the Hope for Tomorrow team consisting of Dr. Thi Nguyen, Dr. Quyen Dang and Dr. Thu Anna Able traveled to Minneapolis, MN to attend the Paris By Night show. At the Paris by Night show, the Hope for Tomorrow team was presented with a grant check for $1,000,000 (one million dollars) from Daisy Nail Designs (DND) by Mr. Loc Duong, CEO of DND.

Hope for Tomorrow would like to express its deepest gratitude to DND and Mr. Loc Duong. The tremendous generousity of DND and Mr. Loc Duong will greatly increase the programs and services offered by Hope for Tomorrow to serve those in need.

The following Hope for Tomorrow projects are recipients of the DND grant funds.

Projects:
1. Kinh 7 Charity Clinic
2. Naza Senior Center & Hospice
3. Education Scholarship Program
4. Dental Equipment & Tools Upgrade
5. Building Bridges Project
6. Water Filtration Systems
7. Phat Buu Orphanage
8. HFT Building Schools Project
9. Youth Leadership & Training
10. Compassionate Service Society Youth

MISSIONS

International Dental & Medical Missions

In 2005, Hope for Tomorrow hosted its first international dental and medical mission to Da Nang, Vietnam. The 2005 mission provided the foundation bedrock upon which Hope for Tomorrow was built. Today, one of Hope for Tomorrow's primary programs is the international dental and medical missions to help the disadvantaged communities.

Currently, the Hope for Tomorrow team concentrates its international mission works in Vietnam and Cambodia. The mission provides free dental and medical care to those who do not have access and cannot afford the care.

In order to provide care to the less fortunate, the Hope for Tomorrow team has collaborated extensively with other non-profit organizations such as the Order of St. Camillus in Saigon, Vietnam, L'Association Vietnam Entraide et Solidarité in Paris, France and many others.

Mar. 17, 2018. Free dental clinic, Howard County, Maryland. Members of HFT team giving Mr. Allan H. Kittleman (black jacket), Howard County Executive a tour of the clinical area.

MISSIONS

Domestic Dental & Medical Missions

In 2014, the Hope for Tomorrow (HFT) team decided to host free dental clinic days in the Washignton D.C. metropolitan area. With the experience gained from conducting numerous international dental and medical missions, the team was ready to use their knowledge and skills to serve people in the USA.

Each year, the HFT team host about four free dental clinics to help the disadvantage communities in the Washington D.C. metropolitan area. The majority of the free dental clinics is hosted in Maryland or Virginia.

The HFT team started engaging with local and State government to create a public/private partnership to deliver dental care to the marginalized community.

The HFT team worked closely with the Howard County, Maryland government to host a free dental clinic day in Laurel, Maryland. HFT teamed up with Loudon County, Virginia to host a free dental clinic day in Leesburg, Virginia.

In the coming years, HFT is looking to collaborate with more partners to deliver needed dental services and improve oral health.

Volunteers coming to play with the Children of Mai Tam Orphanage.

Infrastructure

Mai Tam Orphanage

In 2008, the Mai Tam Orphanage for children living with HIV/AIDS opened its doors. The Mai Tam House of Hope, also known as Mai Tam Center, is a home and center for HIV/AIDS positive widows, mothers, and children. The center provides shelter, medicine, medical care, education, and a safe haven for its residence.

Today, the Mai Tam Center, the first and still the only facility of its kind in Saigon, Vietnam, supports more than 500+ women and children in need. In addition to providing emotional and physical support, the center provides vocational training to help its residents become more independent and improve their self esteem.

As the children grows, the challenge of entering school, growing up and ask for more space is becoming a good reality.

Due to increasing demand to support orphans who are HIV/AIDS+, the Hope for Tomorrow team continues to collaborate with the Order of St. Camillus in Saigon to open Mai Tam Orphanage II. In 2016, the HOPE team completed building the Mai Tam Orphanage II.

Young mother taking her son to Gary House for assistance with cancer treatment.

Infrastructure

The Gary House

The Gary House was fashioned after the Ronald McDonald house for patients undergoing cancer treatment and their family. The Gary House opened its doors in 2014 Saigon, Vietnam. From January 2014 to present, the Gary House has served over 800+ patients.

The Gary House provides the following to its patients:

- Free boarding and lodging for children and their family members while undergoing cancer treatments.
- Free transportation and treatment support for poor children with serious illnesses
- Improve quality of life for the children through education, games, social and spiritual support.
- Provide hospice care for the children towards their last stage of life.
- Counseling, health education and grief-care for family members.

IMPACT: Providing food, housing, medical treatment, and pyschological support to those in need

Infrastructure

Naza Senior Center & Hospice

In Vietnamese tradition, children will take care of their parents when the parents gets older. What happens to older adults who do not have family members to help them. The older adults needs care and understanding also.

Understanding the needs to care for older adults, the Hope for Tomorrow team is working to build a senior center to care for older adults and provide for them a better quality of life as they get older.

The need for palliative care wards and programs in Vietnam is real. However, there are currently only a handful of hospitals or clinics which include palliative care services. Palliative care aims to improve the quality of life for patients suffering from deadly diseases. It focuses on reducing pain while increasing comfort and dignity.

Palliative care is still a relatively new concept in Vietnam. As the demand continues and the value of end-of-life comfort is realized, it is quite likely these programs will continue to appear across the country

Project Lead: Dr. Chuong Phan

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Providing treatment/services for free or highly discounted cost to those in need

Infrastructure
Kinh 7 Charity Clinic

The Kinh 7 Charity Clinic is located in Rach Gia, Kien Giang Province, Vietnam. The clinic was established in the 1980s to serve the disadvantaged communities in the area. In the past decade, the clinic has expanded its foot prints and provided additional services to those seeking medical care.

The uniqueness of the clinic is in the incorporation of both Eastern and Western medicine to help the patients recover. In addition, a strong interfaith community shares in various aspects of helping to run and manage the clinic.

The fundings provided by DND and HFT will help to build a new hosptical wing. The new wing will include additional hospital beds for in-patient, a denta clinic with two dental chairs, and other expanded services to help the patients.

Project Lead: Dr. Chuong Phan

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Providing clean potable water helps reduce water borne illness and prolong life

Infrastructure

Water Filtration Systems

663 million people in the world live without clean water. That's nearly 1 in 10 people worldwide. Or, twice the population of the United States. The majority live in isolated rural areas and spend hours every day collecting water for their family. Not only does walking for water keep children out of school or take up time that parents could be using to earn money, but the water often carries diseases that can make everyone sick.

Diseases from dirty water kill more people every year than all forms of violence, including war. 43% of those deaths are children under five years old. Access to clean water and basic sanitation can save around 16,000 lives every week.

Access to clean water means education, income and health - especially for women and kids. The installation of water filtration systems at strategic geographical locations can help provide access to clean and safe drinking water.

Project Lead: Loc X. Nguyen

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Providing students a better learning environment, more knowledge enrichment and a chance for a brighter future.

Infrastructure
School of HOPE

In Vietnam, primary school education is compulsory for all children.The country's literacy rate is over 90%. Elementary school education is free. The cost of tuition, books, and uniforms and the need to supplement family income are the two main reasons for dropping out. A huge disparity exists in primary school enrollment between the cities and rural parts of Vietnam. In some rural areas, only 10 to 15 percent of the children progress beyond third grade, whereas almost 96 percent of pupils in Saigon complete fifth grade.

In remote rural areas, the schools are poorly built and ceates a hazard for students.

The School of HOPE is a program to help build single room or double room schools to create a safe learning environment for the students. HFT will wok in collaboration with others to build the schools. The location selected will generally be in remote rural areas.

Project Lead: Loc X. Nguyen

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Building bridges to save lives.

Special Projects
Building Bridges

Everyday countless numbers of people use poorly constructed bridges to travel from one place to another. In rural areas like the Mekong Delta region, the locals created Monkey Bridges as a means to cross small streams or gully. A cầu khỉ ("monkey bridge") in Vietnam is a handmade bamboo or wooden passway across a stream or gully.

In the remote areas of Vietnam, children literally put their lives in jeopardy to attend school. Especially in the monsoon season, which lasts for months, students needs to cross rivers on perilous monkey bridges. Building well constructed foot bridges allows kids a safe journey to school.

The HFT team established a special project to help replace old monkey bridges and foot bridges with a stronger foot bridges made of concrete and steel.

Project Lead: Dr. Quyen Dang

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Giving students an opportunity to realize their potential and helping to shape a brighter future

Services

Education Scholarships Program

Hope for Tomorrow has been working with the Vietnam Student Development Funds (VNSDF), a non-profit based in Switzerland, to provide needed academic scholarships to undergraduates and graduate students. The students are primarily from very challenged economic backgrounds.

The scholarship's goal is to inspire students to cultivate free, independent and creative thinking while fostering greater ethical conduct and a sense of social and environmental responsibility. The HFT team provides grants to VNSDF, and also provides mentoring to students who receives the scholarships.

VNSDF provides administration, management, promotion and awarding of the scholarships. All scholarship management aspects are controlled by VNSDF.

With additional fundings provided by DND, the HFT Education Scholarships Program started collaborating with the Foundation for the Children of Vietnam in Virginia to assist students from K-12.

Project Lead: Chau Nguyen

Fundings: Hope for Tomorrow & DND Gel

Services
Commpassionate Service Society

Hope for Tomorrow provided a grant to the Compassionate Service Society Youth's summer mission to Vietanm. The grant was used to purchase provisions such as rice, cooking oil, sugar, fish sauce, soy sauce and instant noodles. The provision package were distributed to the senior citizens living by themselves and do not have anyone to care for them.

Project Lead: Hung Nguyen

Fundings: Hope for Tomorrow & DND Gel

Services
Youth Leadership & Development

Hope for Tomorrow (HFT) hosed a youth leadership and development seminar to help enrich the younger HFT volunteers. Lighthouse Leadership Coaching headed by Dr. John Nguyen provided the primary training materials.

Thru training, the young HFT volunteers will be able to lead others, communicate effectively, identify strengths and areas for improvements.

Project Lead: Thang Do

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Using the right tools for the job to help deliver better care for the patients.

Services

Dental Equiment Upgrade

Whether building a new dental practice from scratch, upgrading an existing practice or expanding a practice, numerous pieces of dental equipment will be needed to complete the project. Beyong the technologies used to treat patients, dental equipment includes the utility systems that power a dental practice, the systems used for infection control protocols, and all of the equipment used to set up a portable dental operatory.

The tools and equipment used by the dental team is in dire need of an upgrade and moderniation. With the grants received from DND, the dental team is able to procure more robust and portable dental equipements to make setting up mobile dental operatories easier.

Project Lead: Dr. Anna Thu Abel

Fundings: Hope for Tomorrow & DND Gel

IMPACT: Giving students an opportunity to realize their potential and escape the circle of poverty

Services

Secondary School Funds

Secondary education in Vietnam is split into two programmes - lower secondary (Trung học cơ sở) runs for students aged 11 to 15, and upper secondary (Trung học phổ thông) caters to students who have graduated the lower programme and want to stay in education until age 18. Students can choose to study either a science based programme, or an arts and humanities programme. Secondary education is not considered compulsory in Vietnam.

Hope for Tomorrow is working with schools in Nha Trang and Mui Ne area to provide needed scholarships to disadvantage secondary school students.

The scholarship's goal is to inspire students to realize their potentials and give them an opportunity for a brighter future.

Students from the Le Hong Phong Secondary School in Nha Trang is the first group of students to receive the HFT Secondary School Funds scholarship.

Project Lead: Hung Nguyen

Fundings: Hope for Tomorrow & DND Gel

Dr. Tara Van Toai (white shirt - front row) posing for a picture with a group of HOPE MiFi borrowers.

Services

HOPE Micro-Finance

The Hope for Tomorrow Micro Finance (HOPE MIFI) mission is to provide working capital to women in the lowest income brackets in Vietnam and other developing countries so they can engage in income producing activities to better their life and the lives of their family.

HOPEMIFI works closely with L'Association Vietnam Entraide et Solidarité in Paris, France to provide micro finance loans.

The HOPEMIFI team provides technical and financial support while L'Association Vietnam Entraide et Solidarité provides management and administration of the program.

The micro finance repayment rate is between 95% - 97%. Sometimes the lender cannot repay the loan due to unexpected situations like dealth in the family, illness or economic hardship.

In the future, HOPEMIFI will provide loans to 20 borrowers. Each loan will be approximately $650 for a period of two years.

Project Lead: Dr. Tara Van Toai

Special Projects

Children & Senior Support

A team of Hope for Tomorrow volunteers in Vietnam who called themselves the Friends Group gathers monthly to provide financial and material supports to very poor senior citizens living in extreme conditions and remote areas in Vietnam.

The majority of the seniors who receive care do not have any family members or children to care for them.

Through the Senior Support program, Hope for Tomorrow is able to provide urgent medical and dental care, materials for daily life such as blankets, clothing, food and other provisions.

The Hope for Tomorrow team also provides emotional and spiritual support throught weekly interactions and visits from various volunteer members.

Project Lead: Loc X. Nguyen

Compassion House Project team prepares to presents a newly constructed home to a resident in the Mekong Delta region. (TOP) The family living in their original house.

Special Projects

Compassion House

The ”Compassion House Project” was started by Mr. John Donovan. Mr. Donovan is a Vietnam Navy Veteran who served in the Mekong Delta during the war. Mr. Donovan returned to the Mekong Delta and helped build 70 new homes for poor farmers earning less than $5.00 a day.

Compassion House Project provides housing and educational assistance in the Mekong Delta region of Vietnam. Compassion House Project continues with a special focus on upward social mobility. This is accomplished by supporting families where the parents are committed to keeping their children in school with the intention and hope that the children will go onward to obtain a college education.

Compassion House Project will support 10 families each year with new homes, micro financing and health care that will ultimately enable them to break the poverty cycle. Compassion House Project is an all-volunteer organization and every penny goes directly to the people in need. A new home and educational support costs as little as $1,500 dollars per family.

Hope For Tomorrow Board of Directors
(2018 - 2020)

DR. THI NGUYEN (President)

Dr. Thi Nguyen is the President of Hope for Tomorrow for the term of 2018 - 2020. As President, Dr. Thi Nguyen will establish visionary directions and implement strategies to grow the organizations. Previously, Dr. Thi Nguyen held position as treasurer and a member of the dental leadership team on numerous international and domestic dental and medical missions.

MR. LOC X. NGUYEN (Vice President & Chief Engineer)

Mr. Loc X. Nguyen is the real "Q" for the HFT Team. He wears multiple hats and engages in various roles to help HFT grow. As Vice Presidnet, Loc will help manage the HFT operation and help identify potential growth opportunities. Previously, he helped manage all HFT's records, financial needs and sets budget forecast for the year. Loc Nguyen is best known for his role as Chief Engineer and primary logistics coordinator for domestic coordinator.

DR. ANNA ABEL (Vice President & Dental Director)

Dr. Anna Thu Abel aka Anna/Thu has been with HFT for over a decade. One of Anna's primary roles is to serve as the HFT Dental Team lead and chief recruiter for dental talents. Anna is dedicated and very passionate about charity works. In her leisure, you will find Anna devising new ways to help those in need.

MR. CHAU NGUYEN (Secretary & Public Relations)

Mr. Chau Nguyen has been with HFT for over a decade and served in numerous roles. As Secretary and Public Relations Director, Chau is responsible for community liason and outreach activities and helping maintain important corporate records organized. Chau is working diligently to establish more partnerships between Hope for Tomorrow and Local/State/Federal entities.

DR. DUC LE (Treasurer & Medical Director)

Dr. Duc Le was elected to be the new Treasurer for HFT. Already, Dr. Duc has setout to modernize how HFT accounting systems and records keeping is done. Using his experience, Dr. Duc is poised to ensure all HFT financial records are properly managed and compliant. Dr. Duc serves as the Medical Director for HFT. Dr. Duc Le helps oversee medical operations for HFT international and domestic dental and medical mission. Dr. Duc Le also serves as the Emergency Medical Response coordinator for all international and domestic missions.

MR. THANG DO (Past President)

Mr. Thang Do is the Director of Nomination Committee. He is the current Past-President serving HFT from 2015 – 2017. Thang was the third President elected to lead the HFT team. In his spare time, Thang is known to be an amateur myth buster. As a seasoned engineer, Thang can re-engineer anything you might need/want. During his tenure (2015-2017), Thang helped ushered in a new era of partnership betweeb HFT and organizations such as Howard County, Maryland's Department for Community Partnership, Asian American of Frederick, Maryland and others.

MR. HUNG NGUYEN (Director of Finance)

Mr. Hung Nguyen is the Director of Finance. Hung has been with the HFT team since 2005. He participated in HOPE Mission #1 in 2005. In his leisure, Hung is an amateur-professional master chef. His culinary skills and masterful presentation styles has earned him the title of Iron Chef Rockville.

DR. CHUONG PHAN (Director of Compliance/Ethics)

Dr. Chuong Phan is the Director of Compliance/Ethics. Dr. Chuong was the second President to serve HFT from 2012 – 2014. Dr. Chuong is an avid write and known for his literary masterpieces.

DR. QUYEN DANG (Director of Special Projects)

Dr. Quyen Dang is the Director for Specials Projects. Dr. Quyen's specialty is helping ad-hoc projects together to help those in need after natural disasters and other uncontrollable events. In his leisure, you will find Dr. Quyen racing down the street with his sports motorcycle and trying to breach the sound barriers.

2018 International Dental & Medical Mission to Kinh 7, Rach Gia, Vietnam

In the summer of 2018, The Hope for Tomorrow team hosted an international dental and medical mission to Vietnam. From July 18 - July 30, 2018, the mission team worked in Saigon and Rach Gia. The mission team consisted of 80 volunteers (both local Vietnamese and international members). The volunteer team included 21 medical and dental professionals and 58 volunteers to handle logistics and mission management. The team successfully delivered needed dental care and medical examinations to nearly 1400+ patients with an estimated value of $461,911 in services rendered. The dental services delivered included: restorative; extractions; prophylaxis or debridement or scaling root planning, and fluoride. The mission team also provided provisions such as rice, sugar, cooking oil and instant noodles to needy families in Rach Gia, and Tra My areas.

About the HFT Logo

Vietnam has three distinct regions: North, Central, and South. The Northern parts of Vietnam was the geographical origin of ancient Vietnam. The Central region is best characterized by the Vietnamese Imperial Courts. The Southern region is characterized by the rice paddies and extensive farm lands. These collective characteristics are embodied in the Hope for Tomorrow logo.

The HOPE logo has three distinct colors - red, yellow and green. Red symbolizes the combine heritage and bloodline that all Vietnamese shared. Based on the mythical Vietnamese genesis story, all Vietnamese are descendants of Âu Cơ and Lạc Long Quân. Yellow represents the Vietnamese Imperial Courts located in Central Vietnam. Green represents the extensive rice paddles and farm lands of South Vietnam.

Spiritually, the three figures holding hands have different meaning based on your belief. For Christians, the three figures holding hands represents the Holy Trinity: The Father, The Son and the Holy Spirit. For Buddhists, the three figures holding hands represents the three gem: The Buddha, The Buddhist Cannon, and the Sangha (Buddhist community of monks).

The HOPE logo is the embodiment of the UNITY of HOPE, LOVE and CARE. PROUD to SERVE.
