HOPE FOR TOMORROW

PROUD to SERVE

2019 Hope for Tomorrow team in Vietnam. The team worked in Kontum and Don Duong city.

About Hope for Tomorrow

Established in 2005, Hope for Tomorrow is a 501(c)(3) non-profit organization based in Rockville, Maryland. Hope for Tomorrow (HFT) started with a small group of friends who wanted to give back to the community because they have been blessed with generosities from their newly adopted home – America.

In the spirit of friendship and giving back, Hope for Tomorrow started with a few friends which grew into a group of 200+ dedicated volunteers and growing. Hope for Tomorrow is committed to a 100%-volunteer managed and operated non-profit organizations.

Hope for Tomorrow's mission is to provide healthcare, human services, infrastructure build outs and educational assistance to the disadvantaged communities. Hope for Tomorrow organizes and runs numerous programs to serve those in need. The programs includes the following :

1. International Dental & Medical Missions
2. Domestic Dental Missions
3. Infrastructure build out
4. Educational assistance
5. Human services
6. Special projects

Hope for Tomorrow Board of Directors (2018 - 2020) (L-R): Thang Do, Chau Nguyen, Dr. Quyen Dang, Dr. Thi Nguyen, Loc Nguyen, Dr. Anna Abel, Dr. Chuong Phan, Dr. Duc Le, and Hung Nguyen

Letter from the President of Hope for Tomorrow

On behalf of Hope for Tomorrow (HFT), I would like to express my sincere gratitude for your continuous support and participation in pushing Hope for Tomorrow forward. In May 2018, HFT received its first $1 Million dollars grant from Daisy Nail Designs (DND). From the DND grant, the HFT team identified numerous projects which covers areas such as infrastructure, education, and health and human services. I want to thank Mr. Loc Duong, CEO of DND, for believing in HFT and giving the HFT team the opportunity to increase its service offering. HFT is proud to serve those in need.

In 2019, the HFT team help build out a 15,000 square feet facility to give patients a place to recover while getting treatment at the Kinh 7 Charity Clinic. Team members collaborated with other organizations to build schools, water filtration systems, small foot bridges and so much more. The energy and the comraderie from working together has strengthen the Hope for Tomorrow Community.

HFT started out with three members. Now, there are hundreds of dedicated volunteers. Our Volunteers are exponentially multiplying. As an organization, HFT is still growing. The organization needs all forms of support. Most importantly, HFT needs energetic volunteers and teams members to take on leadership roles. I urge you to join the Hope for Tomorrow team and make a difference.

Dr. Thi Nguyen
President (2018 - 2020)

HFT Team receiving a $1 Million Dollars grant check from DND. (L-R) Dr. Quyen Dang, Dr. Thi Nguyen, Mr. Loc Duong and MC Nguyen Cao Ky Duyen

DND Grants

On May 26, 2018, the Hope for Tomorrow team consisting of Dr. Thi Nguyen, Dr. Quyen Dang and Dr. Thu Anna Able traveled to Minneapolis, MN to attend the Paris By Night show. At the Paris by Night show, the Hope for Tomorrow team was presented with a grant check for $1,000,000 (one million dollars) from Daisy Nail Designs (DND) by Mr. Loc Duong, CEO of DND.

Hope for Tomorrow would like to express its deepest gratitude to DND and Mr. Loc Duong. The tremendous generousity of DND and Mr. Loc Duong will greatly increase the programs and services offered by Hope for Tomorrow to serve those in need.

The following Hope for Tomorrow projects are recipients of the DND grant funds.

Projects:
1. Kinh 7 Charity Clinic
2. Naza Senior Center & Hospice
3. Education Scholarship Program
4. Dental Equipment & Tools Upgrade
5. Building Bridges Project
6. Water Filtration Systems
7. Phat Buu Orphanage
8. HFT Building Schools Project
9. Youth Leadership & Training
10. Compassionate Service Society Youth

2019 Summer dental mission in Don Duong, Vietnam. Children queing up to get their dental treatments from the Hope for Tomorrow team.

MISSIONS

International Dental & Medical Missions

In 2005, Hope for Tomorrow hosted its first international dental and medical mission to Da Nang, Vietnam. The 2005 mission provided the foundation bedrock upon which Hope for Tomorrow was built. Today, one of Hope for Tomorrow's primary programs is the international dental and medical missions to help the disadvantaged communities.

Currently, the Hope for Tomorrow team concentrates its international mission works in Vietnam and Cambodia. The mission provides free dental and medical care to those who do not have access and cannot afford the care.

In order to provide care to the less fortunate, the Hope for Tomorrow team has collaborated extensively with other non-profit organizations such as the Order of St. Camillus in Saigon, Vietnam, L'Association Vietnam Entraide et Solidarité in Paris, France and many others.

March 2019. Free dental clinic at the Korean Central Presbyterian Church (KCPC), Chantilly, VA. 200+ HFT voluteers provided treatments to over 500+ patients.

MISSIONS

Domestic Dental & Medical Missions

In 2014, the Hope for Tomorrow (HFT) team decided to host free dental clinic days in the Washignton D.C. metropolitan area. With the experience gained from conducting numerous international dental and medical missions, the team was ready to use their knowledge and skills to serve people in the USA.

Each year, the HFT team host about four free dental clinics to help the disadvantage communities in the Washington D.C. metropolitan area. The majority of the free dental clinics is hosted in Maryland or Virginia.

The HFT team started engaging with local and State government to create a public/private partnership to deliver dental care to the marginalized community.

The HFT team worked closely with the Howard County, Maryland and Loudon County, Virginia government to host a free dental clinic day to serve those in need.

In 2019, the HFT team partnered with the Korean Central Presbyterian Church (KCPC) to provide care to over 500+ patients. The domestic dental mission hosted by the KCPC marked a major milestone for HFT. The KCPC dental clinic had 200+ volunteers and treated 550+ patients.

Volunteers coming to play with the Children of Mai Tam Orphanage.

Infrastructure

Mai Tam Orphanage

In 2008, the Mai Tam Orphanage for children living with HIV/AIDS opened its doors. The Mai Tam House of Hope, also known as Mai Tam Center, is a home and center for HIV/AIDS positive widows, mothers, and children. The center provides shelter, medicine, medical care, education, and a safe haven for its residence.

Today, the Mai Tam Center, the first and still the only facility of its kind in Saigon, Vietnam, supports more than 500+ women and children in need. In addition to providing emotional and physical support, the center provides vocational training to help its residents become more independent and improve their self esteem.

As the children grows, the challenge of entering school, growing up and ask for more space is becoming a good reality.

Due to increasing demand to support orphans who are HIV/AIDS+, the Hope for Tomorrow team continues to collaborate with the Order of St. Camillus in Saigon to open Mai Tam Orphanage II. In 2016, the HOPE team completed building the Mai Tam Orphanage II.

Young mother taking her son to Gary House for assistance with cancer treatment.

Infrastructure

The Gary House

The Gary House was fashioned after the Ronald McDonald house for patients undergoing cancer treatment and their family. The Gary House opened its doors in 2014 Saigon, Vietnam. From January 2014 to present, the Gary House has served over 800+ patients.

The Gary House provides the following to its patients:

- Free boarding and lodging for children and their family members while undergoing cancer treatments.
- Free transportation and treatment support for poor children with serious illnesses
- Improve quality of life for the children through education, games, social and spiritual support.
- Provide hospice care for the children towards their last stage of life.
- Counseling, health education and grief-care for family members.

IMPACT: Providing food, housing, medical treatment, and pyschological support to those in need

Infrastructure

Naza Senior Center & Hospice

In Vietnamese tradition, children will take care of their parents when the parents gets older. What happens to older adults who do not have family members to help them. The older adults needs care and understanding also.

Understanding the needs to care for older adults, the Hope for Tomorrow team is working to build a senior center to care for older adults and provide for them a better quality of life as they get older.

The need for palliative care wards and programs in Vietnam is real. However, there are currently only a handful of hospitals or clinics which include palliative care services. Palliative care aims to improve the quality of life for patients suffering from deadly diseases. It focuses on reducing pain while increasing comfort and dignity.

Project Lead: Dr. Chuong Phan

Fundings: Hope for Tomorrow & DND

Status: Active
- Awaiting permitting before construction can continue.

BEFORE: Old patient's room

AFTER: Brand new rooms for patients

Infrastructure

Kinh 7 Charity Clinic

IMPACT: Providing treatment/services for free or highly discounted cost to those in need

The Kinh 7 Charity Clinic is located in Rach Gia, Kien Giang Province, Vietnam. The clinic was established in the 1980s to serve the disadvantaged communities in the area. In the past decade, the clinic has expanded its foot prints and provided additional services to those seeking medical care.

The uniqueness of the clinic is in the incorporation of both Eastern and Western medicine to help the patients recover. In addition, a strong interfaith community shares in various aspects of helping to run and manage the clinic.

The fundings provided by DND and HFT helped build a new 15,000 sq. feet facility to allow patients to rest before they go home. The new wing includes additional beds patient to use, a dental clinic with two dental chairs, and other expanded services to help the patients.

Project Lead: Dr. Chuong Phan

Fundings: Hope for Tomorrow & DND

Status: Completed

IMPACT: Providing clean potable water helps reduce water borne illness and prolong life

Infrastructure

Water Filtration Systems

663 million people in the world live without clean water. That's nearly 1 in 10 people worldwide. Or, twice the population of the United States. The majority live in isolated rural areas and spend hours every day collecting water for their family. Not only does walking for water keep children out of school or take up time that parents could be using to earn money, but the water often carries diseases that can make everyone sick.

Diseases from dirty water kill more people every year than all forms of violence, including war. 43% of those deaths are children under five years old. Access to clean water and basic sanitation can save around 16,000 lives every week.

Access to clean water means better education, income and health - especially for women and children. The installation of water filtration systems at strategic geographical locations can help provide access to clean and safe drinking water.

Project Lead: Loc X. Nguyen

Status: Active

This schools is located in Tra Cang, Nam Tra My, Quang Nam province. HFT built the school to provide a safe and clean learning environment for students and teachers.

Infrastructure
School of HOPE

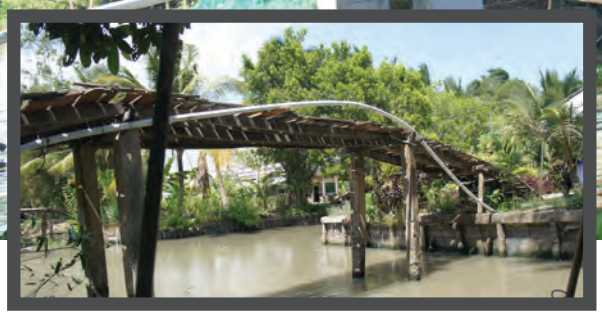

In Vietnam, primary school education is compulsory for all children.The country's literacy rate is over 90%. Elementary school education is free. The cost of tuition, books, and uniforms and the need to supplement family income are the two main reasons for dropping out. A huge disparity exists in primary school enrollment between the cities and rural parts of Vietnam. In some rural areas, only 10 to 15 percent of the children progress beyond third grade, whereas almost 96 percent of pupils in Saigon complete fifth grade.

In remote rural areas, the schools are poorly built and ceates a hazard for students.

In 2019, HFT built two schools. One is located in Tra Cang Nam Tra My, Quang Nam province. The other school is located in Tay Tra, Quang Ngai province. Both schools provides a clean, modern and safe environment for both students and teachers.

Project Lead: Loc X. Nguyen
Fundings: Hope for Tomorrow & DND

Status: Active
- Completed building two schools
- Reviewing other site to build schools

BEFORE: Old wooden bridge

AFTER: Newly built concrete bridge

Special Projects

Building Bridges

Everyday countless numbers of people use poorly constructed bridges to travel from one place to another. In rural areas like the Mekong Delta region, the locals created Monkey Bridges as a means to cross small streams or gully. A cầu khỉ ("monkey bridge") in Vietnam is a handmade bamboo or wooden passway across a stream or gully.

In remote areas of Vietnam, children literally put their lives in jeopardy to attend school. Especially in the monsoon season, which lasts for months, students needs to cross rivers on perilous monkey bridges. Building well constructed foot bridges allows kids a safe journey to school.
The HFT team established a special project to help replace old monkey bridges and foot bridges with a stronger foot bridges made of concrete and steel.

Project Lead: Dr. Quyen Dang

Fundings: Hope for Tomorrow & DND

Status: Active
- Evaluating other potential bridge sites

HFT team members visiting the orphanage.

Children living at the Phật Bửu *orphange.*

Infrastructure

Phat Buu Orphanage

Phat Buu Orphanage (Mái Ấm Chùa Phật Bửu) is located in Nha Trang, Khanh Hoa Province, Vietnam. The orphange is home to 70+ children and 10 older adults. The orphans are in the care of Buddhist Nun Nguyên Tịnh. Like the orphans, the older adults do not have any family to care for them. Nun Nguyên Tịnh and her staff are the only people caring for them.

The Hope for Tomorrow team is working with the Phật Bửu Orphanage to build a multi-purpose room which will serve as a classroom for the children, activities room for both children and adults and an area for other activites.

A special Thank You to the family of Mr. Dương Quang Thiết for helping to raise funds to allow for the expansion of the orphanage from a single floor to a two story structure. The completed orphanage will provide a safe haven and allow the staff to provide more activities for the children.

Project Lead: Hung N. Nguyen

Fundings: Hope for Tomorrow & DND

Status: Active
- Space build out is completed
- Building fences & play ground is in-process

HFT Flood Relief team delivering supplies to local villagers affected by the sever flooding cause by the typhoon in September 2019.

Special Projects

Natural Disaster Relief

Unexpected events such as natural disaster might hit an area. The people living in the area are not prepared for the disaster which fell upon them. HFT has a special team dedicated to helping victims of natural disaster.

A HFT Flood relief team was created to help local villagers cope with the aftermath of the disaster. The HFT team along with numerous volunteers gathered to help distribute provisions and other aids. A local Temple or a dry location was used as a distribution center. The relief team provided 500 Care Packages which contains items like 10 kg rice, fish sauce, instant noodles, cooking oik, 1 kg of MSG, 1 box of Laundry Detergent, 1 bag of Bouillon, 1 large Mosquito net, 1 Large warm Blanket, 10 eggs, a case of milk carton, and a loaf of bread was transported into the affected areas.

Some of the villages visited includes:
1. Eahua village in Buon Don Province
2. Cu M'Lan village in Easup Province
3. Cu Kbang village

Project Lead: Dr. Quyen Dang

Fundings: Hope for Tomorrow & DND

Status: Completed

Mr. Vo Van Huy received his MS from Frech PolyTech. He is pursuing a PhD in Artificial Intelligent. From buffalo herder to PhD in AI. Right Time. Right Moment

Mr. Le Phu Dong is the first student to receive a HFT scholarship. He graduated with a BS. Currently, Phu Dong is the VNSDF country director. Paying Forward.

Services

Education Scholarships Program

Hope for Tomorrow has been working with the Vietnam Student Development Funds (VNSDF), a non-profit based in Switzerland, to provide needed academic scholarships to undergraduates and graduate students. The students are primarily from very challenged economic backgrounds.

The scholarship's goal is to inspire students to cultivate free, independent and creative thinking while fostering greater ethical conduct and a sense of social and environmental responsibility. The HFT team provides grants to VNSDF, and also provides mentoring to students who receives the scholarships.

VNSDF provides administration, management, promotion and awarding of the scholarships.

With fundings provided by DND, the HFT Education Scholarships Program partnered with Foundation for the Children of Vietnam in Virginia and Viet Toc Foundation in Maryland to provide support and scholarships for children in K-12 grade and college.

Project Lead: Chau Nguyen

Fundings: Hope for Tomorrow & DND

Status: Active

IMPACT: Giving students an opportunity to realize their potential and escape the circle of poverty

Services

Secondary School Funds

Secondary education in Vietnam is split into two programmes - lower secondary (Trung học cơ sở) runs for students aged 11 to 15, and upper secondary (Trung học phổ thông) caters to students who have graduated the lower programme and want to stay in education until age 18. Students can choose to study either a science based programme, or an arts and humanities programme. Secondary education is not considered compulsory in Vietnam.

Hope for Tomorrow is working with schools in Nha Trang and Mui Ne area to provide needed scholarships to disadvantage secondary school students.

The scholarship's goal is to inspire students to realize their potentials and give them an opportunity for a brighter future.

Students from the Le Hong Phong Secondary School in Nha Trang is the first group of students to receive the HFT Secondary School Funds scholarship. The second group will be students from Kontum, Central Highlands area.

Project Lead: Hung Nguyen

Fundings: Hope for Tomorrow & DND

Status: Active

IMPACT: Using the right tools for the job to help deliver better care for the patients.

Services

Dental Equiment Upgrade

Whether building a new dental practice from scratch, upgrading an existing practice or expanding a practice, numerous pieces of dental equipment will be needed to complete the project. Beyong the technologies used to treat patients, dental equipment includes the utility systems that power a dental practice, the systems used for infection control protocols, and all of the equipment used to set up a portable dental operatory.

With the grants received from DND, the dental team is able to procure more robust and portable dental equipements to make setting up mobile dental operatories easier. The portable dental units are used when HFT host free dental clinic days in the Washington DC metro area.

In addition, HFT is lending the equipment to help other organizations host free dental clinic days in their area. In 2019, HFT worked with partners in Dallas and Houston, Texas to host two locl dental clinic day.

Project Lead: Dr. Anna Thu Abel

Fundings: Hope for Tomorrow & DND

Status: Completed

Dr. Tara Van Toai (white shirt - front row) posing for a picture with a group of HOPE MiFi borrowers.

Services

HOPE Micro-Finance

The Hope for Tomorrow Micro Finance (HOPE MIFI) mission is to provide working capital to women in the lowest income brackets in Vietnam and other developing countries so they can engage in income producing activities to better their life and the lives of their family.

HOPEMIFI works closely with L'Association Vietnam Entraide et Solidarité in Paris, France to provide micro finance loans.

The HOPEMIFI team provides technical and financial support while L'Association Vietnam Entraide et Solidarité provides management and administration of the program.

The micro finance repayment rate is between 95% - 97%. Sometimes the lender cannot repay the loan due to unexpected situations like dealth in the family, illness or economic hardship.

In the future, HOPEMIFI will provide loans to 20 borrowers. Each loan will be approximately $650 for a period of two years.

Project Lead: Dr. Tara Van Toai

Status: Active

HFT Children & Senior Support team helps organize monthly activities for the children.

Special Projects

Children & Senior Support

A team of Hope for Tomorrow volunteers in Vietnam who called themselves the Friends Group gathers monthly to provide financial and material supports to very poor senior citizens living in extreme conditions and remote areas in Vietnam.

The majority of the seniors who receive care do not have any family members or children to care for them.

Through the Senior Support program, Hope for Tomorrow is able to provide urgent medical and dental care, materials for daily life such as blankets, clothing, food and other provisions.

The Hope for Tomorrow team also provides emotional and spiritual support throught weekly interactions and visits from various volunteer members.

Special Projects

Compassion House

The ”Compassion House Project” (CHP) was started by Mr. John Donovan. Mr. Donovan is a Vietnam Navy Veteran who served in the Mekong Delta during the war. Mr. Donovan returned to the Mekong Delta and helped build 100 new homes for poor farmers.

CHP provides housing and educational assistance in the Mekong Delta region of Vietnam. CHP continues with a special focus on upward social mobility. This is accomplished by supporting families where the parents are committed to keeping their children in school with the intention and hope that the children will go onward to obtain a college education.

100s of families have benefited from the homes built over the last 10 years. The families are safe, on high ground, and moving forward. CHP will support 10 families each year with new homes, micro financing and health care that will ultimately enable them to break the poverty cycle.

CHP is an all-volunteer organization and every penny goes directly to the people in need. A new home and educational support costs as little as $1,500 dollars per family. The 2020 campaign is underway and we want your kind support .

Project Lead: John Donovan

Hope For Tomorrow Board of Directors
(2018 - 2020)

DR. THI NGUYEN (President)

Dr. Thi Nguyen is the President of Hope for Tomorrow for the term of 2018 - 2020. As President, Dr. Thi Nguyen will establish visionary directions and implement strategies to grow the organizations. Previously, Dr. Thi Nguyen held position as treasurer and a member of the dental leadership team on numerous international and domestic dental and medical missions.

MR. LOC X. NGUYEN (Vice President & Chief Engineer)

Mr. Loc X. Nguyen is the real "Q" for the HFT Team. He wears multiple hats and engages in various roles to help HFT grow. As Vice Presidnet, Loc will help manage the HFT operation and help identify potential growth opportunities. Previously, he helped manage all HFT's records, financial needs and sets budget forecast for the year. Loc Nguyen is best known for his role as Chief Engineer and primary logistics coordinator for domestic coordinator.

DR. ANNA ABEL (Vice President & Dental Director)

Dr. Anna Thu Abel aka Anna/Thu has been with HFT for over a decade. One of Anna's primary roles is to serve as the HFT Dental Team lead and chief recruiter for dental talents. Anna is dedicated and very passionate about charity works. In her leisure, you will find Anna devising new ways to help those in need.

MR. CHAU NGUYEN (Secretary & Public Relations)

Mr. Chau Nguyen has been with HFT for over a decade and served in numerous roles. As Secretary and Public Relations Director, Chau is responsible for community liason and outreach activities and helping maintain important corporate records organized. Chau is working diligently to establish more partnerships between Hope for Tomorrow and Local/State/Federal entities.

DR. DUC LE (Treasurer & Medical Director)

Dr. Duc Le was elected to be the new Treasurer for HFT. Already, Dr. Duc has setout to modernize how HFT accounting systems and records keeping is done. Using his experience, Dr. Duc is poised to ensure all HFT financial records are properly managed and compliant. Dr. Duc serves as the Medical Director for HFT. Dr. Duc Le helps oversee medical operations for HFT international and domestic dental and medical mission. Dr. Duc Le also serves as the Emergency Medical Response coordinator for all international and domestic missions.

MR. THANG DO (Past President)

Mr. Thang Do is the Director of Nomination Committee. He is the current Past-President serving HFT from 2015 – 2017. Thang was the third President elected to lead the HFT team. In his spare time, Thang is known to be an amateur myth buster. As a seasoned engineer, Thang can re-engineer anything you might need/want. During his tenure (2015-2017), Thang helped ushered in a new era of partnership betweeb HFT and organizations such as Howard County, Maryland's Department for Community Partnership, Asian American of Frederick, Maryland and others.

MR. HUNG NGUYEN (Director of Finance)

Mr. Hung Nguyen is the Director of Finance. Hung has been with the HFT team since 2005. He participated in HOPE Mission #1 in 2005. In his leisure, Hung is an amateur-professional master chef. His culinary skills and masterful presentation styles has earned him the title of Iron Chef Rockville.

DR. CHUONG PHAN (Director of Compliance/Ethics)

Dr. Chuong Phan is the Director of Compliance/Ethics. Dr. Chuong was the second President to serve HFT from 2012 – 2014. Dr. Chuong is an avid write and known for his literary masterpieces.

DR. QUYEN DANG (Director of Special Projects)

Dr. Quyen Dang is the Director for Specials Projects. Dr. Quyen's specialty is helping ad-hoc projects together to help those in need after natural disasters and other uncontrollable events. In his leisure, you will find Dr. Quyen racing down the street with his sports motorcycle and trying to breach the sound barriers.

Helping those who help others.

We understand that physicians have unique financing needs, so we've created a specialized mortgage program developed exclusively for professionals who hold an M.D., D.O., D.D.S., D.V.M. or D.M.D. degree. We'll work within your busy schedule and our streamlined process lets you concentrate on what matters most - your patients, your practice and the challenges of everyday life.

Make owning your dream home a reality. Let's get started today!

- **Up to 100% financing available with no Private Mortgage Insurance (PMI)**
- Purchase, refinance or new construction
- No title insurance required on mortgages up to $500,000
- Mortgages up to $1.5 million available
- Fixed rate mortgages up to 30 years
- Adjustable rate mortgages also available
- Second homes also qualify! (not available for investment properties)

About the Logo

Vietnam has three distinct regions: North, Central, and South. The Northern parts of Vietnam was the geographical origin of ancient Vietnam. The Central region is best characterized by the Vietnamese Imperial Courts. The Southern region is characterized by the rice paddies and extensive farm lands. These collective characteristics are embodied in the Hope for Tomorrow logo.

The HOPE logo has three distinct colors - red, yellow and green. Red symbolizes the combine heritage and bloodline that all Vietnamese shared. Based on the mythical Vietnamese genesis story, all Vietnamese are descendants of Âu Cơ and Lạc Long Quân. Yellow represents the Vietnamese Imperial Courts located in Central Vietnam. Green represents the extensive rice paddles and farm lands of South Vietnam.

Spiritually, the three figures holding hands have different meaning based on your belief. For Christians, the three figures holding hands represents the Holy Trinity: The Father, The Son and the Holy Spirit. For Buddhists, the three figures holding hands represents the three gem: The Buddha, The Buddhist Cannon, and the Sangha (Buddhist community of monks).

The HOPE logo is the embodiment of the UNITY of HOPE, LOVE and CARE. PROUD to SERVE.

2019 Hope for Tomorrow - Kontum Team

2019 International Dental & Medical Mission Don Duong & Kontum

From July 5-10, 2019, The Hope for Tomorrow (HFT) team hosted an international dental and medical mission to Vietnam. The mission team worked in Kontum and Don Duong. The mission team consisted both local Vietnamese and USA team members. This was the first time HFT conducted two mission teams in the same timeframe in Vietnam.

The dental services delivered included: restorative; extractions; prophylaxis or debridement or scaling root planning, and fluoride. Aside from dental care, the mission team provided 500+ pairs of reading glasses to those in need.

The mission team distributed care packages, cooked a home made Bun Rieu luncheon and helped entertain the children.

The services and professionalism displayed by the team helps enforce the HFT moto of HOPE-LOVE-CARE.

Mission Accomplishments:

Total volunteers	297
Doctors	49
Dental services (patients)	3729
Eye exam & free glasses	1940
Care package distributed	2600
Rice (kg)	26,000

Make a Difference - Volunteer!
