Three Friends, One Purpose

Hope for Tomorrow began with something simple: friends coming together to give back and help others.

In March 2005, three friends—Dr. Ngoc Chu, My-Lac Hoang, and Chau Nguyen—participated in a medical and dental mission to Phnom Penh, Cambodia. What they witnessed and experienced during that mission left a lasting impression. They saw firsthand how basic healthcare, compassion, and the willingness to serve could bring dignity and hope to people facing difficult circumstances.

They returned home inspired by a question: What more can we do?

Later that year, with the guidance and assistance of Vietnam Assistance for the Handicapped, that inspiration became action. In the fall of 2005, the first official Hope for Tomorrow Medical & Dental Mission—HOPE Mission #1— was organized in Da Nang, Vietnam.

What began as three friends with a shared desire to serve soon became something much greater.

From that first mission, Hope for Tomorrow grew organically through a network of friends, families, volunteers, healthcare professionals, donors, sponsors, partners, and supporters who believed in the same purpose. Each person brought a skill, a helping hand, or a generous heart.

More than two decades later, that spirit remains at the heart of who we are.

HOPE began with friendship. It grew through service. And it continues because generations of people choose to share HOPE, LOVE, and CARE with others. Three friends. One mission. Thousands of lives touched.

About the Logo

The Hope for Tomorrow logo reflects the heritage, unity, and spirit of service that inspired our organization.

HOPE
FOR TOMORROW

Vietnam is traditionally understood through three distinct regions—North, Central, and South—each contributing to the nation's history, culture, and identity. These regions and their shared heritage are symbolically represented through the three colors of the HOPE logo.

Red represents our shared Vietnamese heritage and ancestry. It recalls the traditional origin story of Lạc Long Quân and Âu Cơ, whose descendants symbolize the common bonds connecting the Vietnamese people.

Yellow represents Central Vietnam and the legacy of the Vietnamese imperial courts, particularly the rich cultural and historical traditions associated with Huế.

Green represents the fertile rice fields, farmland, and agricultural communities of Southern Vietnam—symbols of growth, nourishment, resilience, and life.

The three figures holding hands represent unity, collaboration, and our shared responsibility to care for one another. They remind us that meaningful change happens when people come together with a common purpose.

At the heart of the logo is a simple but powerful message:

We are stronger when we stand together.

The three figures embody the values that guide everything Hope for Tomorrow does—HOPE that inspires possibility, LOVE that connects us to one another, and CARE that transforms compassion into action.

United in HOPE. United in LOVE. United in CARE.

About Hope for Tomorrow

Every bridge built. Every child given an opportunity to learn. Every patient cared for. Every family given hope. It all begins with ordinary people making an extraordinary choice—to care.

Founded in 2005, Hope for Tomorrow (HFT) was built upon a simple but powerful belief: when compassion becomes action, lives can be transformed.

For more than two decades, our volunteers, supporters, donors, sponsors, and community partners have come together to bring HOPE, LOVE, and CARE to people and communities in need. As an entirely volunteer-driven organization, we believe meaningful and lasting change happens not by simply doing things for communities, but by working alongside them—listening, collaborating, building relationships, and creating opportunities for a better tomorrow.

Our work reaches communities both at home and abroad. Through healthcare services, educational assistance, critical infrastructure projects, humanitarian services, and special initiatives, we strive to address immediate needs while creating opportunities that can make a lasting difference.

But our work is about more than the projects we complete.

Behind every dental mission is a person who deserves to live without pain. Behind every scholarship or educational opportunity is a young person with a dream. Behind every infrastructure project is a community seeking greater opportunity. And behind every act of service is a reminder that no one should feel forgotten.

Just as importantly, Hope for Tomorrow seeks to inspire the next generation to discover the meaning and responsibility of service. By bringing together healthcare professionals, students, volunteers, community leaders, and supporters, we create opportunities for young people to serve alongside experienced volunteers and learn that true leadership begins with compassion, humility, and a willingness to help others.

Our Vision

Be the inspiration for HOPE, LOVE, and CARE through collaborative and compassionate community services.

Our Mission

Provide compassionate humanitarian community services focused on collaboration while nurturing the next generation of servant leaders.

HFT-2026-ANNUAL-REPORT-v1.indd 3 9/17/26 3:38 PM

How We Serve

Hope for Tomorrow brings our mission to life through programs designed to respond to the needs of individuals, families, and communities:

International Dental Missions — Bringing compassionate dental care and relief to underserved communities abroad.

Domestic Dental Missions — Providing access to dental services for individuals and families in need within our local communities.

Infrastructure Development — Working alongside communities to build and improve essential infrastructure that can create lasting opportunities.

Educational Assistance — Helping students pursue their education and empowering young people to build brighter futures.

Human Services — Supporting individuals and families facing hardship with compassion, dignity, and care.

Special Projects — Responding to unique and emerging community needs through collaborative humanitarian initiatives.

Through every program, every mission, and every partnership, our purpose remains the same: to serve with compassion, preserve dignity, create opportunity, and inspire others to do the same.

Because at Hope for Tomorrow, we believe a better tomorrow does happen.

We create it together—one act of HOPE, one expression of LOVE, and one moment of CARE at a time.

HFT-2026-ANNUAL-REPORT-v1.indd 4 9/17/26 3:38 PM

Letter from the President of Hope for Tomorrow

Dear Friends, Volunteers, Donors, Sponsors, Partners, and Supporters,

As I reflect on the journey of Hope for Tomorrow, I return to one simple question:

What does HOPE truly look like?

Over the years, I have learned that hope is not simply something we feel. Hope is something we create together.

Hope is the volunteer who gives their time to serve others. It is the donor or sponsor whose generosity becomes healthcare, education, clean water, or opportunity. It is the partner who opens doors and the young person who discovers the power of compassion through service.

Most importantly, hope is reflected in the people we serve—in the smile of a child who sees new possibilities, the relief of a parent who knows someone cares, and the gratitude of a patient who knows their health and dignity matter.

These moments define Hope for Tomorrow, and they are possible because of you.
For more than two decades, every mission completed, scholarship awarded, patient cared for, and community supported has been built upon a shared belief: compassion, transformed into action, can change lives.

You have given your time, shared your talents, contributed your resources, built partnerships, and opened doors. Individually, these are acts of generosity. Together, they create lasting impact.

As you explore our 2026 brochure, I hope you see yourself in every story and every life touched.

There are more communities to reach, students to inspire, and families to support.

Together, we will continue to inspire HOPE, share LOVE, and extend CARE.

With heartfelt gratitude,

Dr. Quyen Dang
President
Hope for Tomorrow

International Missions

Since 2005, international dental and medical missions have been central to Hope for Tomorrow's commitment to serving those in need. Beginning with HOPE's first mission in Da Nang, Vietnam, this core program continues to provide free, essential healthcare to disadvantaged communities in Vietnam and Cambodia. Through strong partnerships with organizations including the Order of St. Camillus in Saigon and Sun for Life, HOPE brings together healthcare professionals, volunteers, and resources to reach those who cannot afford or access care. Each mission relieves pain, restores health and dignity, and transforms compassion into lasting HOPE, LOVE, and CARE.

2026 Mission to Pờ Tó, Gia Lai, Vietnam

In 2026, Hope for Tomorrow, in partnership with Sun For Life, brought together nearly 300 volunteers from Vietnam and the United States for a Medical, Dental & Vision Mission in Pờ Tó, Gia Lai, Vietnam. United by compassion and a shared commitment to service, our team delivered essential healthcare and support to communities with limited access to care.

During two full clinical days, our medical teams provided more than 3,000 patient services, including examinations, consultations, and medications. Hundreds of patients received dental examinations, cleanings, fillings, extractions, and preventive care, with 505 dental patients treated on the first day alone. Our vision team served more than 500 patients on the first day, providing eye examinations and eyeglasses to those in need.

Behind every patient served was an extraordinary team effort. More than 50 tons of food, medicine, equipment, and gifts were coordinated for the overall mission, including three trucks carrying dental and vision equipment. Food and essential supplies were also distributed to local families.

A dedicated kitchen and logistics team traveled from Saigon to Gia Lai, preparing meals and supporting nearly 300 volunteers throughout the mission. Before reaching Gia Lai, team members also provided care to children at Mái Ấm Vi Hoàng in Saigon City, Vietnam.

Months of fundraising, planning, preparation, and teamwork made this mission possible. We extend our heartfelt gratitude to our healthcare professionals, volunteers, donors, supporters, and Sun For Life.

Together, we transformed generosity into action—bringing health, dignity, HOPE, LOVE, and CARE to thousands.

HFT-2026-ANNUAL-REPORT-v1.indd 7 9/17/26 3:38 PM

STERLING COMMUNITY CENTE

Domestic Missions

Since our first domestic dental mission in 2013, Hope for Tomorrow has conducted 23 free dental missions, reaching underserved communities throughout the DMV region and Texas. Together, our dedicated volunteers and supporters have provided essential dental care to more than 3,500 patients, delivering approximately $2.5 million in donated services. Beyond relieving pain and restoring smiles, every clinic reminds our patients that they matter—transforming compassionate service into HOPE, LOVE, and CARE.

Free Dental Clinic on May 2, 2026: A Day of HOPE, LOVE & CARE

On May 2, 2026, something beautiful happened at the Sterling Community Center in Loudoun County, Virginia. More than 150 volunteers came together with one purpose: to serve our community with HOPE, LOVE, and CARE.

Dentists, specialists, students, logistics teams, food-service volunteers, photographers, sponsors, and community partners each contributed their time, talents, and hearts. Together, we transformed a community center into a full-service dental clinic and provide care to 188 patients.

From examinations and diagnosis to periodontics, restorative dentistry, endodontics, and oral surgery, our clinical teams delivered an incredible $122,981 in dental services—completely free of charge.

But the day's impact can't be measured in dollars alone.

For someone living with dental pain, HOPE is knowing that relief is possible. LOVE is being welcomed and treated with kindness, regardless of circumstances. CARE is a volunteer taking the time to restore not only a smile, but also comfort, health, confidence, and dignity.

We are deeply grateful to every volunteer, sponsor, donor, patient, and Loudoun County Health and Human Services for making this extraordinary day possible.

To our volunteers: you did more than provide dental care. You reminded 188 people that their health matters and their community cares.

Together, we did not simply hope for a better tomorrow. We helped create it—through HOPE, LOVE, and CARE.

HFT-2026-ANNUAL-REPORT-v1.indd 9 9/17/26 3:38 PM

HFT-2026-ANNUAL-REPORT-v1.indd 10 9/17/26 3:38 PM

Infrastructure

Hope for Tomorrow's Infrastructure Program transforms compassion into lasting places of healing, dignity, and care. From the Mai Tam Orphanage for children affected by HIV/AIDS, Gary House for cancer patients, and the Vi Hoang Senior Center in Saigon, to the expanded Kinh 7 Humanitarian Medical Charity Clinic in Rạch Giá, each project addresses a critical community need.

These facilities are more than buildings—they provide safe environments where vulnerable individuals can receive professional healthcare, support, and compassionate services. Through infrastructure, HOPE creates lasting resources that continue serving communities and transforming lives for generations through HOPE, LOVE, and CARE.

Today, Mai Tam has become far more than an orphanage. It is a community of care providing housing, healthcare, education, vocational training, independent-living support, and hospice services.

In 2025, Mai Tam was home to 70 children and 12 widowed mothers, while supporting another 203 people living within the surrounding community.

For HOPE, Mai Tam represents what long-term commitment can accomplish. We did not simply help build buildings—we helped build a place where children once facing uncertainty can grow, learn, belong, and imagine a future filled with possibility.

Mai Tam - House of Hope

In 2008, Hope for Tomorrow met Father John Phuong Dinh Toai, who was caring for children living with HIV/AIDS and asked HOPE for help. That request began an enduring partnership built on compassion and a shared belief that every child deserves dignity, opportunity, and a place to call home.

Over the next 18 years, HOPE worked alongside Father John and the Order of St. Camillus to support Mai Tam and its growing family. As more children needed care—and as those children grew into young adults—the need expanded from providing shelter to creating opportunities for education, independence, and a future beyond HIV/AIDS. In 2016, HOPE helped complete Mai Tam Orphanage II, providing much-needed additional space.

HFT-2026-ANNUAL-REPORT-v1.indd 11 9/17/26 3:38 PM

Vi Hoang Senior Center

In Vietnamese culture, growing older traditionally means being surrounded and cared for by family. Yet for some elderly men and women, there are no children or relatives to provide that support. Some face their later years alone, struggling with illness, financial hardship, or even homelessness.

The Vi Hoang Elderly Care Center was created to ensure they are not forgotten.

Named in memory of the late Dr. Tran Vi Hoang, the Center is a partnership between Hope for Tomorrow and the Camillian Order to provide a safe and loving home for vulnerable seniors, regardless of their religious beliefs or backgrounds. Construction began in 2020 and was completed in 2024 in District 12, Saigon, Vietnam.

Designed to serve more than 100 residents, the Center provides free accommodation, three nutritious meals each day, long-term medical care, and emotional and psychological support. Most importantly, it offers companionship, security, and a community where each resident is treated with respect and compassion.

Hope for Tomorrow provided primary financial support for construction and continues working with the Camillian Order to strengthen quality standards, accountability, and caregiving practices.

For HOPE, the Vi Hoang Center represents something deeply meaningful: how we care for the elderly reflects the compassion of our community.

This Center is more than a building. It is a home where those who once faced aging alone can find comfort, friendship, dignity, and the reassurance that they are valued, cared for, and never forgotten.

HFT-2026-ANNUAL-REPORT-v1.indd 12 9/17/26 3:38 PM

Kinh 7 Medical Clinic, Rach Gia

Access to physical therapy and rehabilitation remains a significant challenge for many low-income families in Vietnam. Patients recovering from strokes, heart attacks, chronic illnesses, cancer, diabetes, osteoarthritis, and serious injuries often require months or years of rehabilitation. Road traffic accidents, particularly those involving motorcycles, further contribute to the need for long-term care.

Recognizing that the existing facility could no longer meet the growing demand, Hope for Tomorrow is providing primary financial support for the construction of the new Kinh 7 Humanitarian Medical Clinic in Rạch Giá. Designed to serve more than 200 patients each day, the expanded facility represents a commitment to making quality rehabilitation accessible regardless of a patient's financial circumstances.

The clinic combines modern medical technology with traditional Oriental medicine to provide comprehensive and compassionate care. Equally important, it recognizes that healing extends beyond medical treatment. Patients receive free accommodation and three complimentary meals each day, with the same support provided to one family caregiver. Mental health and psychological support will also help families navigate the emotional challenges of treatment and recovery.

In partnership with the Camillian Order, HOPE also supports quality improvement, accountability, and the adoption of care practices aligned with U.S. healthcare standards.

For HOPE, Kinh 7 represents more than a new medical facility. It is a place where financial hardship does not determine who receives care—where patients and families can focus on what matters most: healing, recovery, and the hope of returning home with greater independence and dignity.

Location: Kinh 7, Rach Gia, Kien Giang, Vietnam
Construction completed: 2020.

HFT-2026-ANNUAL-REPORT-v1.indd 13 9/17/26 3:38 PM

Building Smiles, Restoring Dignity: HOPE's Free Dental Clinics in Vietnam

For families struggling financially, dental care can become a luxury they simply cannot afford. Food, housing, and critical medical needs often come first, forcing many people to live with dental pain and infection for months or even years. By the time treatment becomes unavoidable, saving the tooth may no longer be possible.

Hope for Tomorrow believes no one should have to live in pain simply because they cannot afford dental care.

To create sustainable, year-round access to oral healthcare, HOPE has helped establish three free dental clinics in Vietnam:

1. Nha Khoa Theresa, Kinh 7 Humanitarian Medical Clinic in Rạch Giá. Est. 2022
2. Nha Khoa Phú Thượng, St. Paul Humanitarian Medical Clinic in Quảng Nam. Est. 2024
3. Nha Khoa Kim Long, Kim Long Humanitarian Medical Clinic in Huế. Est. 2025.

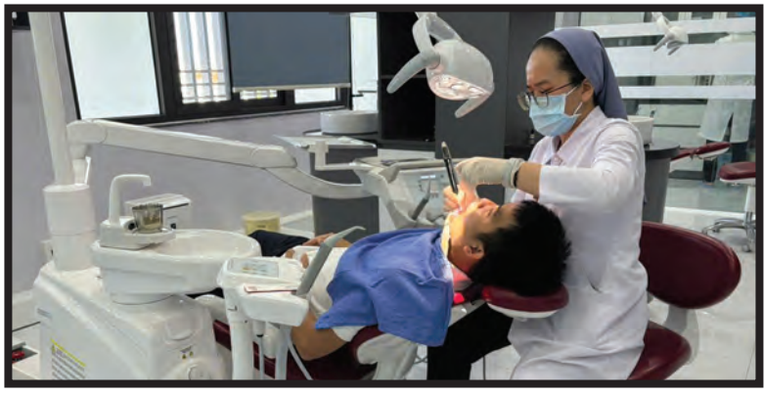

Each clinic brings essential dental services directly into underserved communities. Patients receive preventive examinations, cleanings, fluoride treatments, restorative procedures, extractions, root canal therapy, and other necessary treatments—completely free of charge.

The impact goes far beyond treating a toothache. Early and preventive care can reduce infection, preserve natural teeth, improve nutrition, restore confidence, and protect overall health. Most importantly, these clinics give families access to care before a dental problem becomes a crisis.

This work is made possible through collaboration with local medical and dental professionals, the Camillian Order, St. Paul Order, the Sisters at Kim Long Clinic, and the family of Dr. Bich Loc Nguyen.

Together, we are creating more than dental clinics. We are building places where pain is relieved, smiles are restored, and every patient is treated with dignity through HOPE, LOVE, and CARE.

HFT-2026-ANNUAL-REPORT-v1.indd 14 9/17/26 3:38 PM

Education Assistance Program: Creating Opportunity Through HOPE, LOVE & CARE

At Hope for Tomorrow, we believe education can change not only one life, but an entire family and community. We created our Education Assistance Program to help deserving students overcome financial barriers and pursue opportunities that might otherwise be out of reach.

Through scholarships and academic assistance, HFT supports undergraduate, graduate, and technical school students, with particular emphasis on those from economically disadvantaged backgrounds.

But our commitment extends beyond financial assistance.

We offer HOPE by helping students believe that their circumstances do not have to define their future. Education opens doors, creates possibilities, and gives young people the confidence to imagine a better tomorrow.

We demonstrate LOVE by investing in each student as a person—not simply as a scholarship recipient. Through encouragement and mentoring, we strive to nurture independent and creative thinking, strong ethical values, and a commitment to social and environmental responsibility.

And we show CARE by working alongside trusted nonprofit partners to identify deserving students and provide the support they need to succeed.

Over the years, HFT has collaborated with VietHope, Viet Toc Foundation, VietCorps, Perspective Charity, Sun for Life, and other nonprofit organizations. Our partners help administer and award educational assistance, while HFT contributes funding, mentoring, student screening, and other support.

Ultimately, our greatest measure of success is not simply the number of scholarships awarded. It is seeing students transform opportunity into achievement—and one day use their knowledge, talents, and compassion to create HOPE, LOVE, and CARE for others.

xProjects — Small Projects. Lasting Impact.

xProjects bring together Hope for Tomorrow's smaller, year-round initiatives that respond to immediate needs and create meaningful change.

In 2026, xProject Tết brought Lunar New Year gifts to families in remote villages. xProject Clean Water provides filtered water systems and wells for communities without safe drinking water. xProject Natural Disaster Relief delivers critical assistance when disasters strike, while xProject Monkey Bridge replaces unsafe crossings with durable concrete bridges.

Each xProject may begin with a specific need, but together they represent something greater—communities strengthened, lives improved, and compassion transformed into HOPE, LOVE, and CARE.

xPROJECTS. Proving HOPE through clean water.

Clean Water Changes Everything.

Clean water is not a luxury—it is essential to health, education, opportunity, and dignity. For millions of families, especially in rural communities, finding safe water can consume hours each day, keeping children from school and parents from earning a living. Contaminated water also exposes families to preventable disease. Providing reliable access to clean water does more than quench thirst—it protects children, strengthens families, and gives entire communities the opportunity to build a healthier, more hopeful future.

In the aftermath of the typhoon, many communities faced a new crisis. Water sources that families had depended on for generations were damaged or contaminated, turning one of life's most basic necessities into a serious health concern.
Hope for Tomorrow responded by helping restore something essential—safe, clean water.

Working with local communities, HOPE supported the construction and installation of water filtration systems at schools, providing children, families, and surrounding villages with reliable access to clean drinking water.

The impact reaches far beyond the filtration systems themselves. Clean water means children can attend school with fewer health concerns. It gives parents greater peace of mind and helps communities regain a sense of stability after experiencing tremendous loss.

For HOPE, every drop of clean water represents something greater. It represents health, dignity, resilience, and the promise of recovery.

Through the generosity of our supporters, we are not simply providing clean water—we are helping communities rebuild and giving families HOPE for tomorrow.

HFT-2026-ANNUAL-REPORT-v1.indd 17 9/17/26 3:38 PM

Tết 2026

Tết, the Vietnamese Lunar New Year, is a cherished celebration of family, tradition, gratitude, and new beginnings. Yet for families facing hardship, celebrating this meaningful holiday can be difficult.

Each year, Hope for Tomorrow, together with our generous supporters, sends a piece of our hearts back home—bringing HOPE, LOVE, and CARE to families in need. Though thousands of miles may separate us, compassion knows no distance.

In 2026, our team distributed more than 5,000 Tết gift packages to underprivileged families throughout Vietnam. Each package provided essential supplies to help families welcome the New Year with greater comfort and dignity. More importantly, every gift carried a heartfelt message: You are remembered. You are valued. You are not alone.

Our greatest joy is seeing smiles return to the faces of children, parents, and grandparents. These are more than Tết gifts. They are moments of connection, kindness, and renewed hope for a brighter year ahead.

Relief Works for Natural Disasters

In 2025–2026, Hope for Tomorrow responded to communities devastated by typhoons with a commitment to provide not only immediate relief, but also hope for recovery and a path toward rebuilding.

Through the dedication of our volunteers and generosity of our supporters, more than 15,000 gift packages were distributed to families in need. Assistance included cash, food, clothing, medicine, and household essentials, along with computers, televisions, seeds, trees, hens, and chickens—resources designed to help families restore their homes and rebuild their livelihoods.

Our commitment extended beyond emergency assistance. HOPE also supported the restoration of essential community infrastructure, including water filtration systems, schools, and bridges, helping bring clean water, education, and safe transportation back to affected villages.

For families who had lost so much, these efforts represented more than material assistance. They were a reminder that they were not alone.

Together, our supporters transformed compassion into action—helping communities recover, rebuild, and move forward with renewed HOPE.

xPROJECTS: Building Bridges to connect the Community

In rural communities across Vietnam, especially throughout the Mekong Delta, a simple journey to school can become a dangerous challenge. For generations, families have relied on cầu khỉ, or "monkey bridges"—narrow handmade crossings built from bamboo or wood—to travel across streams and waterways.

During the monsoon season, these fragile bridges can become especially hazardous. For children traveling to school each day, crossing a damaged or slippery bridge means risking their safety simply for the opportunity to learn.

Hope for Tomorrow believes no child should have to choose between safety and education. Through our Bridge Project, HFT works with local communities to replace aging monkey bridges and unsafe footpaths with stronger bridges constructed of concrete and steel. Each new bridge provides more than a safe crossing—it creates a dependable connection to schools, markets, healthcare, and neighboring communities.

Every bridge we build connects more than two shores. It connects children to education, families to opportunity, and communities to a brighter future.

HFT-2026-ANNUAL-REPORT-v1.indd 19 9/17/26 3:38 PM

SPECIAL EVENTS - Pickleball Tournament at Dill Dinkers.

On June 7, 2026, Hope for Tomorrow brought our community together for an afternoon of fun, friendly competition, and giving back at Dill Dinkers in Chantilly, Virginia.

More than 160 participants and supporters filled the courts, including tournament competitors, open-play participants, volunteers, and enthusiastic cheerleaders. The afternoon was filled with laughter, sportsmanship, friendly competition, and a wonderful sense of community.

But behind every serve and every rally was a much greater purpose.

Through participation fees, raffle sales, donations, and generous contributions of prizes, food, and beverages from local businesses and supporters, the event raised more than $10,000 to provide care packages for families during Hope for Tomorrow's 2026 Summer Mission in Pờ Tó, Gia Lai, Vietnam.

For many of the families we serve, these care packages are more than supplies. They are a reminder that someone, even thousands of miles away, cares about their well-being and has not forgotten them. What began as an afternoon of pickleball in Virginia became food, essential supplies, comfort, and hope for families in Vietnam.

We are deeply grateful to every player, volunteer, sponsor, donor, business, and supporter who made this possible.

Together, we turned a game into an act of compassion—connecting two communities across thousands of miles and transforming generosity into HOPE, LOVE, and CARE.

Dr. Chuong Phan (Secretary) is a highly accomplished general dentist with over 25 years of experience delivering advanced, compassionate oral healthcare to families across Northern Virginia. A proud graduate of the Howard University College of Dentistry, he treats patients at Abel, Phan & Associates in Sterling, Virginia, where he integrates state-of-the-art dental technology with a patient-centered approach. One of his most favorite procedures is treating sleep apnea.

Deeply committed to humanitarian efforts, Dr. Phan has extended his impact far beyond the clinic through his leadership at Hope for Tomorrow (HFT). He served as the organization's second President from 2012 to 2014, helping to guide its mission of providing medical and dental services to underserved communities. Continuing his dedicated governance, he holds the vital roles of Secretary (2026–2028) and Director for Compliance/Ethics for the non-profit.

≠≠Dr. Phan is an avid writer widely celebrated for crafting compelling literary masterpieces. When he is not writing or volunteering at the Northern Virginia Dental Clinic, he channels his boundless energy into pickleball at a beginning skill level, playing guitar at an amateur level and gardening at a "green thumb" level.

Dr. Anna Abel (Dental Director) Dr. Anna Abel, a graduate of the University of Maryland School of Dentistry, has devoted more than 20 years to dentistry and compassionate service. Practicing with Abel, Phan, and Associates, D.D.S., PLLC, Dr. Abel believes her calling extends far beyond the dental office.

Since joining Hope for Tomorrow in 2006, she has served as Director of Dental Missions, dedicating her time, skills, and heart to organizing domestic and international missions for underserved communities. Through HOPE, she has helped bring free dental care to individuals and families who might otherwise go without treatment.

For Dr. Abel, dentistry is more than restoring smiles—it is about relieving pain, restoring dignity, and letting people know they are cared for. Her dedication to serving others beautifully embodies HOPE's guiding values of HOPE, LOVE, and CARE.

Dr. Thi Nguyen (International Missions Director) is a dedicated general dentist practicing in Sterling, Virginia, with a passion for improving oral health and serving her community. Throughout her career, she has provided compassionate, patient-centered dental care while helping individuals achieve healthier smiles and greater confidence.

Beyond her dental practice, Dr. Nguyen believes strongly in giving back and using her professional skills to help those with limited access to care. Her commitment to volunteerism reflects the heart of Hope for Tomorrow's mission—bringing people together through service and compassion.

Through dentistry and community service, Dr. Nguyen strives to share HOPE, LOVE, and CARE with every life she touches.

HFT-2026-ANNUAL-REPORT-v1.indd 22 9/17/26 3:38 PM

Board of Directors (2026 - 2028)

Dr. Quyen Dang (President) is a general dentist with more than 20 years of experience serving families in Northern Virginia. A graduate of Howard University College of Dentistry, he has built his career around compassionate care and a belief that everyone deserves to be treated with dignity.
Beyond dentistry, Dr. Dang's greatest passion is helping others. Whether responding to natural disasters, organizing humanitarian missions, or bringing volunteers and resources together, he believes meaningful change begins when people choose to serve.

As President of Hope for Tomorrow, Dr. Dang leads by example—encouraging others to turn compassion into action and bring HOPE, LOVE, and CARE to communities in need.
Away from service, he enjoys sports, motorcycles, and his newest passion—pickleball, where he proudly competes at a beginner level.

Hung N. Nguyen (Vice-President) is a retired federal technology executive with more than three decades of leadership experience in technology modernization, strategic planning, and organizational governance.

For more than 20 years, Hung has served on Hope for Tomorrow's Board of Directors, helping shape the organization's strategic direction, strengthen governance, and advance humanitarian and community programs locally and internationally.

As Vice President, Hung brings extensive leadership experience, responsible stewardship, and a passion for service. As a member of HOPE Mission #1 in 2005, Hung has been part of Hope for Tomorrow's journey from the very beginning. Through collaboration, integrity, and purpose, he remains committed to strengthening HOPE's mission and inspiring others to make a meaningful difference through HOPE, LOVE, and CARE.

Away from service, he enjoys golfing and creating gourmet dinners for his family and friends.

Thang Do (Treasurer) is an accomplished technology and project management professional with 44 years of experience spanning information technology, application development, technical leadership, project management, and quality and process engineering.

Thang's connection to Hope for Tomorrow reaches back to its earliest days. As a member of HOPE Mission #1 in 2005, he has witnessed the organization's journey and remains committed to its mission of HOPE, LOVE, and CARE.

As he prepares for retirement and a new chapter in life, Thang is embracing perhaps his most rewarding role yet—spending time, creating memories, and playing with his first grandson.

HFT-2026-ANNUAL-REPORT-v1.indd 23 9/17/26 3:38 PM

Board of Directors (2026 - 2028)

Dr. Duc Le (Medical Director) is a board-certified emergency physician whose career reflects a deep commitment to healing and service. After 20 years in emergency medicine, he transitioned to advanced vein care and has served as lead physician at Center for Vein Restoration offices in Frederick and Hagerstown for the past 12 years.

Dr. Le's journey with Hope for Tomorrow began as a medical volunteer and grew into years of dedicated leadership. As President from 2018–2025, he guided HOPE through the unprecedented challenges of the COVID era while strengthening partnerships that delivered critical humanitarian relief to communities in Vietnam, including efforts supported by a significant DND grant.

Whether caring for patients or serving communities, Dr. Le believes meaningful change begins with people willing to step forward and help. His leadership exemplifies HOPE's enduring values of HOPE, LOVE, and CARE.

Outside of service, he enjoys his saltwater reef aquarium, poker, road biking, tennis, and pickleball.

Dr. Chris Hung Truong (Director of Dallas Chapter) is an accomplished general and restorative dentist serving the Dallas–Fort Worth community. A graduate of Baylor College of Dentistry, he leads Great Southwest Family Dental, specializing in full-mouth reconstruction, dental implants, and cosmetic dentistry. A Fellow of the Academy of General Dentistry (FAGD) and International Congress of Oral Implantologists (FICOI), he also serves as an adjunct professor at Texas A&M School of Dentistry and mentors dentists in advanced surgical techniques through the Truong Dental Institute.

As Director of HOPE's Dallas Chapter, Dr. Truong channels his expertise and leadership into providing free dental care to underserved communities. Beyond dentistry, he enjoys culinary pursuits, especially brewing sweet tea and perfecting Texas BBQ brisket.

Chau Nguyen (Director of Outreach is an information technology professional specializing in cybersecurity and a dedicated humanitarian committed to serving communities in need. As a co-founder of Hope for Tomorrow and a member of HOPE Mission #1 in 2005, Chau has been part of the organization's journey from its earliest days.

For more than two decades, he has remained dedicated to advancing HOPE's mission, supporting humanitarian programs, strengthening partnerships, and helping create opportunities for others to serve. Chau believes lasting change begins when compassion becomes action. His continued service reflects a lifelong commitment to bringing HOPE, LOVE, and CARE to those who need it most.

He enjoys biking, golfing and watching pickleball. He is a dedicated scouter serving both Packs & Troops.
